

REVALIDATION

Activity 4: Gathering and Reflecting on Staff and Colleague Feedback

Individual Activity – Feedback and Reflection

This activity could provide 1-2 pieces of feedback for your revalidation (it is good to have a range of feedback within your 5 pieces) and one of your 5 reflections.

During one week, ask five different colleagues from the multidisciplinary team the following questions (explaining that you will use what they tell you to help you learn). You could ask them in person or by email.

- What aspects of my role do you think I do well?
- What would you have liked me to do more of/or to do differently?

Record their responses and collect them all together.

Set aside some quiet time so that you can reflect on the responses using the following questions:

1. What do colleagues tell me I do well?
2. What enables me to do this well?
3. How could I do more of this?
4. What do colleagues tell me they would like me to do more of/or to do differently?
5. How could I achieve this?
6. What help/resources might I need?
7. What actions will I take now?

The image shows a 'FEEDBACK LOG TEMPLATE' from the NMC Nursing & Midwifery Council. It includes instructions on how to complete the feedback log and a table for recording feedback. The table has columns for 'Date', 'Source of Feedback', 'Type of Feedback', and 'Details of Feedback'. A sample entry is provided: 'Patient', 'Verbal', and 'Linked to "Prioritising People" domain of the Code'.

| Date | Source of Feedback | Type of Feedback | Details of Feedback |
|------|--------------------|------------------|--|
| | Patient | Verbal | Linked to "Prioritising People" domain of the Code |
| | | | |
| | | | |

Now:

- Collate your learning using the NMC Reflective Accounts Form
- Record your feedback on the Log Template
- Remember to link to the code
